

INDONESIA'S LEADING INTERNATIONAL SCHOOL

WITH HOLISTIC EDUCATION AND  TAILORED CURRICULUM

印尼领先的国际化学校，提供全面的教育系统于  定制课程

MESSAGE FROM **SCHOOL DIRECTOR**

Sampoerna Academy is an educational institution that upholds Asian values at the forefront of learning. Since first being established, the Academy has been producing passionate lifelong learners who are able to meet the challenges of the rapidly changing world, and who care deeply for their fellows and the environment.

The high-quality education provided by Sampoerna Academy is not accidental, but intentional. In our schools, we instill 21st Century Skills within a tailored curriculum that incorporates the Cambridge International curriculum, Singapore Math, a modern Mandarin language curriculum and the Indonesian National Curriculum.

We believe that children learn more by doing: this is why Project-Based Learning and a STEAM Educational framework are at the core of our teaching philosophy. Technological advancements have caused a significant shift in our lives and transformed business models in all sectors. As new technologies such as artificial intelligence, robotics and methods for communication continue to change the landscape of the global workforce, Sampoerna Academy students receive an education that prepares them for this fast-paced and competitive environment.

We believe our approach to teaching and learning is the best we can offer for our beloved sons and daughters in order to prepare them to be work ready and world ready. After studying with us, Sampoerna Academy graduates will be in the best position to contribute to the betterment of Indonesia's future.

Dr. Mustafa Guvercin

WHY **SAMPOERNA ACADEMY**

We are an international school with a holistic approach. We provide education from Pre-School up to Secondary, with a tailored curriculum at each level:

- | | |
|--|---|
| ✓ IEYC (Pre-School) | ✓ Singapore Mathematics (K2 - Grade 8) |
| ✓ Cambridge (Grade K2 - Grade 12) | ✓ Tri-Lingual Program |
| ✓ IBDP (Grade 11 and Grade 12) | (Bahasa Indonesia, English and Mandarin) |

Supported by the STEAM pedagogy, our curriculum stimulates children's critical thinking and creativity skills to enable them to become lifelong learners.

WHY **STEAM**

As the pioneer of the STEAM educational framework in Indonesia, we encourage students to study subjects through the integration of five STEAM perspectives: Science, Technology, Engineering, Arts, and Mathematics. With a STEAM Approach, Sampoerna Academy students will be able to develop 5C skills (Critical Thinking, Creativity, Collaboration, Communication, and Character Building), that help them to be work and world ready as they apply these skills beyond the classrooms.

OUR EDUCATION SYSTEM

are created to enable our students to maximize their potential and to accommodate the wide array of their academic and extra-curricular interests.

INTERNATIONAL BENCHMARKING

✓ We measure our students' success in international tests, including:

- NWEA MAP Growth (K2 to Grade 9)
- Cambridge Primary and Secondary Cambridge Checkpoint
- Cambridge IGCSE and Cambridge AS/A Levels
- IB Diploma Program Exams

PROJECT-BASED LEARNING (PBL)

✓ PBL is a constructive instructional approach where students are engaged in meaningful personal inquiry, and where collaboration and personalized learning are emphasized.

✓ Our PBL projects in our core subjects are proven to develop the 5C skills (Critical thinking, Creativity, Collaboration, Communication, and Character Building), that train Sampoerna Academy students to be work and world ready as they apply these skills beyond the classroom.

BENEFITS OF PROJECT-BASED LEARNING (PBL):

- ✓ Students develop the ability to transfer their learning to new situations.
- ✓ Students demonstrate an increased ability to define problems and support their reasoning.
- ✓ Students are able to tackle conceptual problems better than those taught with a more traditional curriculum.

TECHNOLOGY INTEGRATED EDUCATION

- Sampoerna Academy teachers are Google Certified educators.
- One to one laptops for students (Grade 3 and above).
- Additional apps and software support student learning such as Koobits Math, Raz Kids online reading, etc.

MULTIPLE LANGUAGES PROFICIENCY

✓ Graduates are competent in three languages: English (as the language of instruction), Bahasa Indonesia, and Mandarin Chinese.

毕业生能掌握三种语言：英语（作为教学语言）、印尼语和汉语

✓ The Sampoerna Academy Mandarin curriculum is based on the BLCU (Beijing Language and Culture University) curriculum. Students who have studied Mandarin at our school since a young age will be able to pass the HSK level 5 or 6 language tests. This test is necessary to enter Chinese Universities and will help our students in their careers.

Sampoerna 教育学院汉语课程以北京语言大学 (BLCU) 课程为基础。自幼在我校学习汉语的学生将能够通过HSK 5级或6级语言测试。这项考试对于进入中国大学学习是必须具备的条件，学习中文将会对我们的学生在以后的职业生涯起着居大的辅助作用。

INTERNATIONAL APPROACH TO INDONESIAN VALUES

✓ Adoption of the international approach to critical thinking, creativity, collaboration, and communication skills while celebrating the harmony of Indonesian culture.

STUDENT CAREER PLANNING

- Advising on subject selections
- Career planning (and Interest Tests)
- Connect students to Universities
- University Application support

As passionate critical thinkers Sampoerna Academy students **IGNITE** their creativity and take action to meet the challenges of a rapidly changing world.

SAMPOERNA ACADEMY EXPERIENCE

An international school with a holistic education approach, through tailored curriculum of IEYC* (Pre-school and Kindergarten), Cambridge (G1-G12), Singapore Math (up to G8), and IBDP** (G11-12)

Pioneer in STEAM (Science, Technology, Engineering, Arts, and Mathematics) pedagogy to stimulate student 5Cs (Critical Thinking, Communication, Collaboration, Creativity, and Character Development)

Supported by experienced, qualified, and certified teachers.

English as the language of instruction, effective Mandarin Chinese and Bahasa Indonesia classes.

Globally Minded, Locally Rooted.

*IEYC - International Early Years Curriculum,
